Subject: RE: Planning Application PLAN/2020/0568 - Land to North & South Side of Goldsworth Road, Woking [SG29349]

Dear Sirs,

I refer to the Application referenced above, brought to our attention by another aviation stakeholder, to our previous advice for this site. NATS has assessed the proposed application; despite this having the potential to affect its H10 radar located at Heathrow airport, NATS is satisfied that there is sufficient ongoing construction at this location which upon completion is anticipated to shield the proposal. Accordingly, NATS has no objections to the application.

Regards
S. Rossi
