Subject: Re: PLAN/2020/0568

Dear Sir/Madam

As a resident of Kingsway, Woking I strongly object to the above development for the following reasons;

- Parking is not adequate and additional pressure will be put on street parking in areas such as Kingsway,
- The flat proposals are far too tall and Woking skyline will look very unappealing and unsightly,
- The social economic infrastructure in Woking is already struggling and there are not enough schools, doctors, dentists, leisure and gym facilities to sustain the development of the proposed size,
- Transport networks are not able to cope,
- Woking station currently not large enough to deal with the potential number of commuters,
- The sewage system not able to deal with that many additional properties,
- Loss of light to nearby residents,
- Concentration of housing in such a small area and lack of green spaces,
- There is already high disruption and building works going on in the town centre and this will add to this disruption and make Woking an unappealing place to visit.

Yours Faithfully

Mrs Charlotte Bagchi
