To Whom It May Concern....

I fully support the need to build up in these times rather than encroach on our beautiful Surrey countryside that cannot be replaced once gone but I do have an unease about the height of one of the proposed buildings being 41 storeys high. That is the official storey height of what is described as a 'Skyscraper' and I think it inappropriate for Woking, just not necessary to be so high. On that basis I strongly object to this planning application.
