Dear Sir/Madam,

I am writing to support Eco-World's plans for the Greening of Goldsworth Road as an amenity for the people of Woking, for the following reasons:

- The town will benefit from a green pedestrianised street on the west side of what is going to be a massively widened highway running right through the town and effectively splitting it in two.
- It will give much needed TLC to an area of Woking which has been somewhat neglected in the past.
- the plans include essential links for pedestrians and cyclists.
- the plans include a variety of residential accommodation to suit different purses, and modern parking facilities with chargers for electric cars.
- the inclusion of shops and cafes will make it a sociable place with provision for jobs.
- As a supporter of the York Road Project, and sometime volunteer, I thoroughly endorse the idea of a new, purpose-built centre for this valuable local charity, where all the facilities can be housed under one roof, making for cohesion between the day centre and the night shelter.

I urge Woking Council Planners to accept this well-designed and attractive -looking project.

Yours sincerely,

(Mrs). Marian Wernham
