I strongly Object the the proposed plans,ref: PLAN/2020/0568 for the following reasons:

- \* overdevelopment
  - \* inadequate parking areas
  - \* inadequate recreational areas
  - \* inadequate infrastructure
  - \* extremely limited family accommodation
  - \* up to 41 storeys of dull un expiring tower blocks (equivalent to current tower blocks being built in Woking) the modern day equivalent of the 60s/70s rabbit hutches!
  - \*family homes are required, to a volume that can be accommodated with suitable infrastructure.
  - \* not quick fixes just to appease local & government statistics.
- Woking's skyline has become a blot on the landscape for miles around, with no aesthetics within the architecture of high rise.

Thank you J.Wood
